## Pinot Noir - Russian River Valley

A great reflection of the diversity of the Russian River Valley region. Four different clones, three different soil types and a grape know to show bright cherry and plum flavors intertwined with light earthy, mushroom-like notes. A wine that plays well with fish, meat and cheese dishes as well as vegetarian cuisine...

**Smoked oysters on artisan crackers**

**Grilled Salmon with savory sauce / wild boar sausages**

**Creamy aged cheeses / Duck breast with wild mushrooms**
